

TEMPERATURE SHIPMENTS MADE EASY

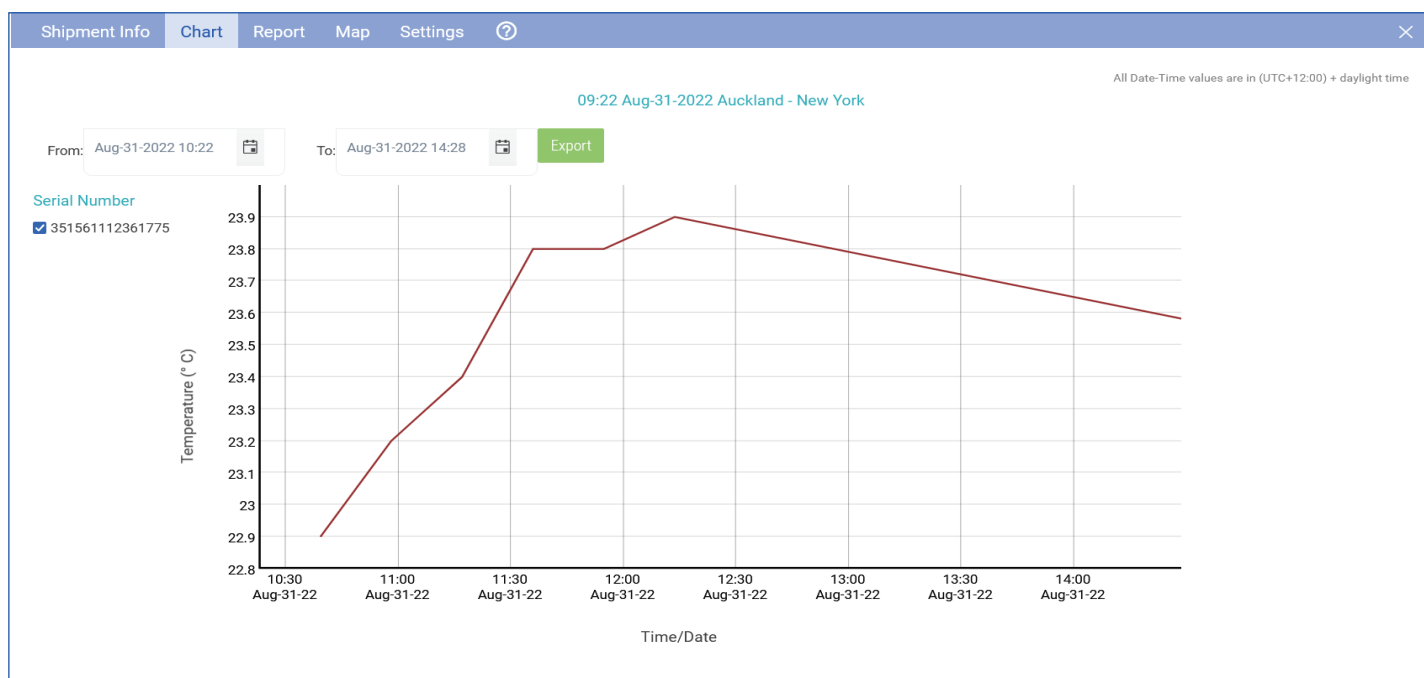

LogTag[®]

LogTag Online
Transit

Transportation Cloud Storage Service

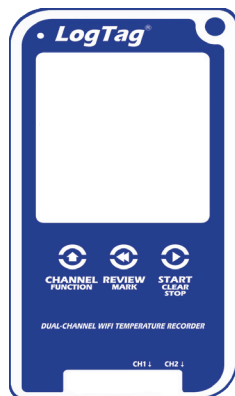

LogTag Online (LTO) is a Cloud-based online environmental management system providing alarm notifications, compliance, record storage and reporting functions.

LTO Transit makes it easy for an individual or team to monitor, document and audit shipment(s) with a wide range of features including checking shipment status and full-historical records and reports.

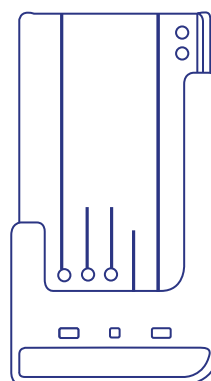

WiFi Compatibility:

Works with all LogTag loggers

UTRED/UTREL30-WiFi
Not Included

LTI-WM-WiFi
Not Included

Features

Immediate notification of a temperature excursion sent to your email or phone.

Data is uploaded to the cloud in real time.

Simple to track and view each shipment status in one place.

Data accessible by different users granted permission.

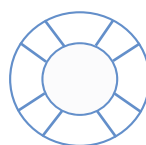

Access your data through LogTag Online on any device with an internet connection and internet browser.

Setting up your account is quick and easy, then you can access your data online.

LogTag Online can be accessed using any LogTag data logger, so you don't need to upgrade your existing loggers in order to get started.

Support for LogTag Online is available through LogTag's Global distribution network.

Account Structure

Feature	Basic (Free) Account (No Activation Code)	Pay-As-You-Go Account [^] (Activation Code required)
Number of Shipments	Unlimited ⁵	Unlimited ⁵ (Dependent on amount purchased via Activation Codes)
Viewing History	10 Years	10 Years
Notifications ²	Email Only	Email + SMS (or WhatsApp ³)
SMS (USA)	None	Unlimited ³
SMS (Outside USA)	None	Up to 25 per month with Activation Code, additional messages can be purchased
Maximum number of files ⁴	30	30 (Dependent on amount of Locations purchased via Activation Codes)
File Storage	1 Year	10 Years
Number of registered devices	Unlimited	Unlimited
Number of users	2	Unlimited

¹ One Location can only have one data logger (such as the TRED30-16 or UTRED30-WiFi Real-Time). Purchasing Location activation codes allows multi-team members and provides Notification units.

² Messaging capabilities are not activated until Location and/or Notification activation codes are purchased. Alert notification that are sent through WhatsApp are not free and use notification units.

³ Only for mobile service providers that support the Email-to-Text service. Other providers will depend on the purchased activation code. Carrier fair use policies apply.

⁴ Can upload unlimited number of files to LogTag Drive. Free account gets to view the last 30. Increased capacity of Drive requires purchasing Location activation code at 1000 per Location.

⁵ Can create unlimited Shipments. Free account gets 10 Shipment units which allows up to 10 data uploads only from any data loggers in any shipment. Purchasing Shipment unit activation codes allows additional data upload (1 Shipment unit is for 1 data upload from any logger, be it the same or from different data loggers) as well as multi-team members.

[^] To activate and use LogTag Online features (depending on user requirement), contact your local provider to purchase activation code(s) – and be on a Pay-As-You-Go account.

Security Compliance

LogTag Online is committed to providing you with a trusted set of cloud services. LogTag Online complies with all requirements for electronic records including [FDA 21 CFR Part 11](#). We have leveraged our decades-long industry experience building enterprise to create a robust set of LogTag Online security technologies and practices. These work to help reduce the cost, complexity, and risk associated with security in the cloud.

To download the full LogTag Online Security Compliance PDF, go to the [LTO Compliance tab](#).
