YOUR DATA, ANYWHERE, ANYTIME

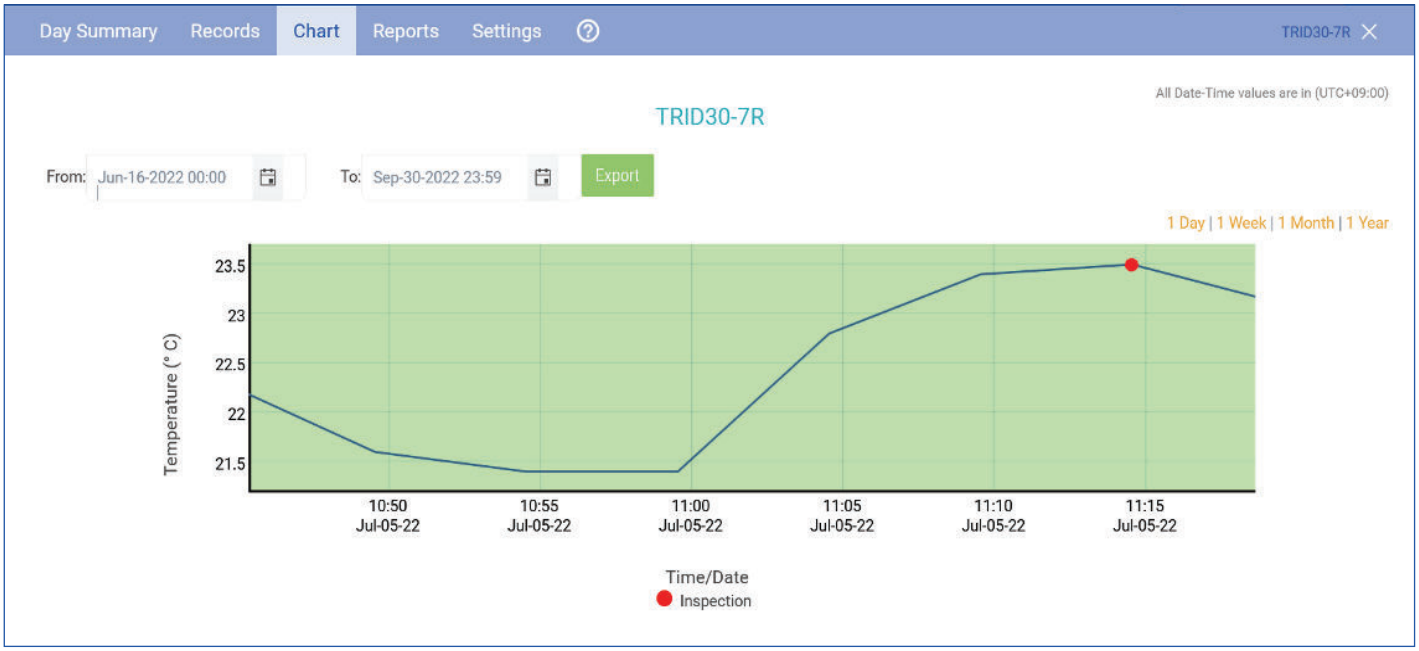
LogTag®

LogTag Online

Fixed-Site Cloud Storage Service

LogTag Online (LTO) is a Cloud-based online environmental management system providing alarm notifications, compliance, record storage and reporting functions.

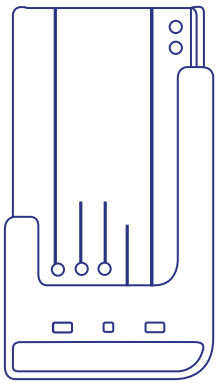
LTO allows its users to download data from LogTag data loggers, view the data in the cloud, and allows the sharing and securing of the data using a permissions system.



WiFi Compatibility:

Works with all LogTag loggers

UTRED/UTREL30-WiFi
Not Included



LTI-WM-WiFi Interface cradle
Not Included

Features

Immediate notification of a temperature excursion sent to your email or phone.

Data is uploaded to the cloud in real time.

Suitable for all users from small clinics to the largest hospitals.

PDF and CSV logging reports are automatically sent via email.

Access your data through LogTag Online on any device with an internet connection and internet browser.

Setting up your account is quick and easy, then you can access your data online.

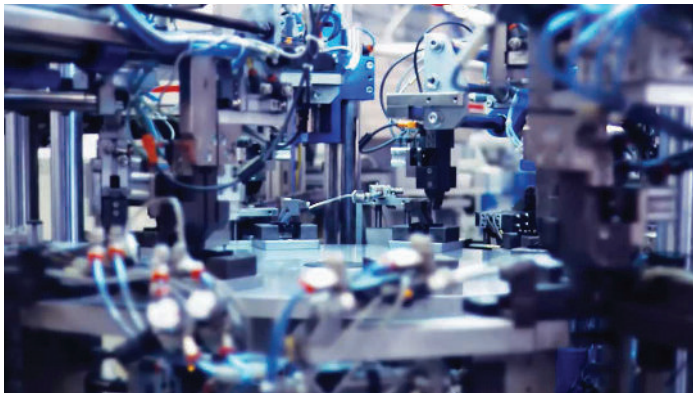
Data from any LogTag data logger can be accessed through LogTag Online upon registration. There is no need to upgrade your existing loggers in order to get started.

LogTag Online automates vaccine temperature monitoring and maintains compliance to VFC and CDC Guidelines.

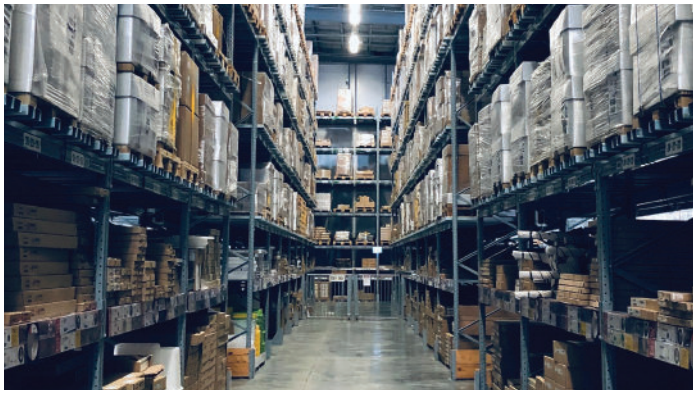
Support for LogTag Online is available through LogTag's Global distribution network.

Applications

Vaccines / Medical & Healthcare



Industrial & Manufacturing



Warehouse

Food & Produce

Storage Rooms

Logistics

Account Structure

Feature	Basic (Free) Account (No Activation Code)	Standard (Paid) Account^ (Activation Code required)
Number of Locations	1 Limited Location	1 Full Location per purchased Activation Code[1] Valid for 12 or 24 months
Location History	3 Months	10 Years
Notifications[2]	Email Only	Email + SMS or WhatsApp[2]
SMS (USA)	None	Unlimited[3]
SMS (Outside USA)	None	Up to 25 messages per month (dependent on amount purchased via Activation Code)
Maximum number of files[4]	30	1000 (dependent on amount of Location purchased via Activation Code)
File Storage	1 Year	10 Years
Number of registered devices	Unlimited	Unlimited
Number of users	2	Unlimited

[1] One Location can only have one data logger (such as the TRED30-16 or UTRED30-WiFi Real-Time). Purchasing Location activation codes allows multi-team members and provides Notification units.
[2] Messaging capabilities are not activated until Location and/or Notification activation codes are purchased. Alert notification that are sent through WhatsApp are not free and use notification units
[3] Only for mobile service providers that support the Email-to-Text service. Other providers will depend on the purchased activation code. Carrier fair use policies apply.
[4] Can upload unlimited number of files to LogTag Drive. Free account gets to view the last 30. Increased capacity of Drive requires purchasing Location activation code at 1000 per Location. If recurring notifications have been sent with failed acknowledgment after multiple attempts, it will be detected as excessive usage. Further costs will apply if you wish to receive ongoing notifications beyond the fair usage amount by topping up directly on LogTag Online.

^ To activate and use LogTag Online features (depending on user requirement), contact your local provider to purchase activation code(s) – and be on a Standard (Paid) account.

Security Compliance

LogTag Online is committed to providing you with a trusted set of cloud services. LogTag Online complies with all requirements for electronic records including FDA 21 CFR Part 11. We have leveraged our decades-long industry experience building enterprise to create a robust set of LogTag Online security technologies and practices. These work to help reduce the cost, complexity, and risk associated with security in the cloud.

To download the full LogTag Online Security Compliance PDF, go to the LTO Compliance tab.
